Fieldwork experiential learning courses will take place off-campus in a variety of community-based and healthcare sites, as well as on-campus for simulated learning experiences.

Level I Fieldwork – Level IA and IB will take place during the first year and Level IC will take place in the student’s second year of the program. Each Level I experience is a 1-week long rotation at various clinical settings that correspond with the didactic courses.

Level II Fieldwork – Level II fieldwork is experiential learning that will take place off-campus in a variety of community-based, psychosocial, and healthcare sites. Level IIA fieldwork will occur in the last trimester of the student’s second year. Level IIB will occur in the first trimester of the student’s third year. Level II fieldwork experiences are 12 weeks each, following a full-time, site-determined schedule. Exact clinical hours may vary depending on the site.

Doctoral Capstone Experience (DCE) – The DCE is completed during the final trimester of the program at a community partner site. The length of the doctoral capstone experience is a minimum of 14 weeks full-time, and a minimum of 32 hours per week.
